*Be sure to save all data in your device and then press the Power button to switch your device off before resetting your device.

Notification LEDs

The device has 2 notification LEDs: the left is Wi-Fi/Bluetooth LED and the right is GSM/Battery LED.

Bluetooth/Wi-Fi LED tells you about the device's Bluetooth/Wi-Fi status:

Color	Bluetooth on	Wi-Fi on
Green	Off	Blink
Blue	Blink	Off

Green and blue blink alternately while both Bluetooth and Wi-Fi are on.

GSM/Battery LED lets you know that you have unanswered calls or tells you about the device's GSM/battery status:

Color	Missed Call/ Low Power	GSM on (battery full)	GSM on (battery low)	Charging
Red	Blink	Off	Blink	Off
Orange	Off	Off	Off	Constantly on
Green	Off	Blink	Off	Off

Accessories

Installing the SIM Card and Battery

1	AC adapter	10	Strap set

9	Battery		

Installing the SIM Card and Battery

If you want to use phone features, you must install a Valid SIM card.

1. Press the battery cover downward and slide one of the cover latches down at the same time.
2. Repeat the same steps to unlock another cover latch.
3. Lift the battery cover as the diagram shown below.

Unlock the latch

Unlock the latch

⚠ Please do not remove the battery cover when your device is in use; otherwise, the device power will be shut off automatically and unsaved data may be lost.

4. Pull the plastic ribbon to remove the battery.

---

5. Place the SIM card in the SIM card slot with the gold contacts facing down. The SIM card's cut-off corner should match the cut-off corner in the SIM card slot.

6. Press the battery down forcefully into the battery slot.

7. Angle the battery cover as shown in the diagram and close the battery cover.
8. Press the battery cover downward and slide one of the cover latches up at the same time.
9. Repeat the same steps to lock another latch.

Lock the latch

Lock the latch

⚠ Please avoid placing the battery as the direction shown in the figure. This may damage the battery switch (the part circled in red) in the battery slot.
The device contains a rechargeable Li-ion polymer battery completely discharged and should be charged for at least 8 hours before first use.
Powering On/Off the Device

Press the POWER button to turn on the device. The POWER button is located on the top of the front side of the device. When you power on the device for the first time, you are asked to calibrate the device. Please refer to the "Calibrating your device" section in this chapter for calibration steps. Press the POWER button again to switch the device to sleep mode. You can still receive phone calls and messages when the device is operating on sleep mode. To power off the device completely, press and hold the POWER button for 3 seconds and the system will prompt you to power off the device.

Today Screen

The Today Screen is usually the first screen that appears when you turn on the device for the first time each day. It displays a summary of information for the day, shows you the system status and contains a list of shortcuts to programs. The Today screen looks like this:

Tap here to rotate the screen

1	Date and time
2	Wireless status (GSM, Wi-Fi, and Bluetooth)
3	Owner information
4	Unread messages including text messages, MMS messages, and e-mails
5	Active tasks
6	Upcoming appointments
7	Live Search
8	Device lock status

Tap here to trigger the Wireless Manager

Icon Indicators

Status indicators appear at the top of the screen and on the Today screen. The following table lists common status indicators and their meanings.

New e-mail		PC Connection is active
New voice mail or text message (SMS)		Connection is not active
New notifications		Synchronization in progress
New instant message		Ringer on
Voice call		Ringer off
Voice call in progress		Roaming
Data call in progress		No Voice mail
Calls are forwarded		Voice mail Lines 1
Call on hold		Call Forwarding Lines 1
Missed call		Alarm
Battery level 1		GPRS available
Battery level 2		GPRS in use
Low battery		No SIM card installed
Extremely low battery		EDGE available
Backup battery low		EDGE in use
Battery charging		Wi-Fi connection in progress
Signal strength		Ringer in vibration mode
Bluetooth bonding in progress		Function key on
No signal		Synchronization error
Flight mode		Barcode reader off
No service		Barcode reader on

The Phone Screen

From the Phone screen, you can open, call, or find a contact, and even save a new number in Contacts. To access the Phone screen, do any of the following:
• Press the TALK key (   ).
• Tap   > **Phone**.

Making a Call by Entering a Phone Number

To enter phone numbers by tapping the screen directly, you have to open the Phone Keypad.
1. On the Phone screen, if the Phone Keypad doesn't show automatically, tap **Keypad**. A Phone Keypad will show, you can then enter the phone number.
2. Do one of the following after entering the phone number:
   • If you see the number or contact name to call, select it, then tap [icon] or press the TALK(   ) key.
   • If you do not see the number or contact name, finish entering the number, then tap [icon] or press the TALK (   ) key.

> **NOTE** Tap [icon] on the screen once to erase one single number; tap and hold it to erase a whole string of numbers.

Making a Call from Call History

Call History displays calls you have made, received, and missed.
1. On the Phone screen, tap the **Call History** button on the Phone keypad.

Call History
1.Calls you received
2.Calls you made
3.Calls you missed

2. Select the name or phone number to call.
3. Tap **Call** or press TALK (   ).

> **NOTE** Tap a phone number or a contact in the Call History list displays history on all the calls related to the contact or the phone number.
> When someone who isn't in your list of contacts calls you, you can create a contact during the call from or from Call History by tapping **Menu** > **Save to Contacts**.

Making a Call from Contacts
1. On the Phone screen, tap on the desired contact in the list. You can quickly search through Contacts by entering the first letter of the contact or the first number of his/her phone number.
2. Do one of the following:
   • Tap on the number you want to dial; otherwise, you can tap **Call** on the screen or press TALK (   ).
   • Tap and hold the contact and select **Call Work**, **Call Home**, or **Call Mobile** from the pop-up submenu.
